## WORK EXPERIENCE

### •SurveySparrow

July 2025 - April 2026

Product Developer

Chennai, Tamil Nadu

- Owned **end-to-end development** of a scalable nominations system with **database schema architecture** for future scalability, enabling **organization-wide voting**. Re-designed participant selection using **DB-driven filtering** (departments, groups, custom properties) in **PostgreSQL**, reducing OpenSearch dependency and infrastructure cost.
- Built **custom, context-aware participant filters** ensuring dropdown options reference only eligible users, improving UX and query efficiency. Introduced **targeted database indexes** for high-traffic queries and integrated **OpenSearch** for low-latency full-text search.
- Built **state-driven scheduling workflows** using **Time Relic** to trigger emails, in-app notifications, and actionables. Implemented **background processing and caching** using **BullMQ + Redis**, improving throughput and reducing database load.
- Delivered **high-performance frontend** using **React + React Query** with reusable components via **Twiggs**. Leveraged **AI-assisted development** to deliver an estimated **3 months of planned work in 1.5 months** without compromising quality.

### •Rogue Pixxel It Solutions LLP

August 2024 - July 2025

Full Stack Developer

Ranchi, Jharkhand

- Architected a comprehensive ERP solution for one of India's top organizations — responsive frontend with **Next.js** and scalable **Nest.js** backend using **TypeScript** and **SOLID** principles. Designed **PostgreSQL** schema from scratch with **JWT authentication** and **RBAC** for multiple user roles.
- Built reusable **REST API**-integrated components with **Redux** and **Zustand** for state management. Developed **SEO-optimized** real estate frontend using **Next.js** with **Express.js** backend and dynamic animations via **Framer**.

### •G7CR Technologies - A Noventiq Company

May 2023 - March 2024

Cloud Engineer

Bengaluru, Karnataka

- Led complete **Azure Cloud migration** for multiple mid-sized enterprises; produced detailed migration reports with actionable optimization strategies, resulting in **optimization of client workloads**.
- Automated Disaster Recovery** for a **Fortune 500 corporation** using PowerShell scripts, resulting in **significant reduction in downtime**. Developed a **React.js** employee performance dashboard for an SMB, enabling real-time insights and streamlined evaluations.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Java, HTML, CSS, Tailwind CSS

**Frameworks:** React.js, Next.js, Node.js, Nest.js, Express.js, Redux, Zustand, React Query, BullMQ, Redis, OpenSearch

**Cloud / DevOps:** Azure, Docker, Linux, CI/CD, Microservices

**Databases & Tools:** PostgreSQL, MongoDB, REST API, Git, GitHub, Postman, Jira, Swagger, Agile, Scrum

## PROJECTS

### –Trendy Cart

E-commerce platform with login/signup using JWT Auth, REST API integration and sections for popular products.

\* Technology Used: **MongoDB, Express.js, React.js, Node.js, REST API, Git**

### –My Resume Website

A web application showcasing profile, projects, certifications and achievements.

\* Technology Used: **HTML, CSS, JavaScript, Git**

## CERTIFICATIONS

**ReactJS:** Certified React.js Developer — March 2025

**Microsoft Certified:** Azure Administrator Associate — AZ-104 — March 2024

**Microsoft Certified:** Azure Fundamentals — AZ-900 — December 2023

**LeetCode:** 50 Days Badge 2023

## EDUCATION

### –Kalinga Institute of Industrial Technology (KIIT)

Bachelor of Technology in Electronics & Telecommunication Engineering

July 2018 - June 2022

Bhubaneswar, Odisha
